

A single piece of wild Akita cedar is beautifully bent to create "9" shaped plates. The texture of the cedar is elegant yet modest, which makes your cooking look even more fabulous. The plates are extremely light and easy to carry. Cylinder part functions as a holder for chopsticks or napkins. Odate bent woodwork is a designated traditional craft of Japan.

- use/ plate
- material/ Akita wild cedar
- design/ Masanori Watanabe
- traditional craft/ Odate Magewappa(Akita)
- origin/ Japan
