

The lunchbox has a beautiful pattern of natural Akita cedar. The wood has a reputation of keeping the food tasty even when it becomes cold. Yukio Hashimoto designed it with a little inspiration from a playful idea. It might make you want to take a nice nap after lunch. It comes in circular or oval shapes. Odate Magewappa is a designated traditional craft of Japan.

- use : lunchbox
- material : Akita wild cedar
- design : Yukio Hashimoto
- craft : Odate Magewappa(Akita), hand-made
- origin : Japan
